We invite you to participate in the implementation of
a unique project -

International traditional archery festival «ARCHERY TRADITION»

Dates of the festival:

August 18-19, 2018

Venue: **National Museum of Folk Architecture and Life of Ukraine
«Museum in Pirogiv»**

Goals of the Festival:

- popularization of traditional archery as a means of harmonious human development;
- revival of the national tradition of archery;
- international exchange of experience, representation of Ukraine in the world-wide «archery» community.

Organizer:

The team of the Ukrainian representative office of the World Traditional Archery Federation (WTAF Ukraine)

The “breakthrough of the feather” and the inspiration for the «Archery Tradition» was the festival that took place in September 2016, it had an all-Ukrainian status and was presented in the format of the World Traditional Archery Federation in Ukraine (WTAFU). It was attended by about 80 participants.

Thanks to the experience and interest of foreign friends and partners, the Federation decided to launch an annual international festival that will honorably represent Ukraine in the international community of traditional archery.

On August 24-25, 2017, the First International Festival «Archery Tradition», which gathered 120 archers from six countries: Ukraine, Poland, Lithuania, Turkey, Belarus and Cyprus, took place at the «Museum in Pirogiv».

We are confident that such an event will be of great interest to viewers and mass media since archery has a deep roots in our culture. Participants from different countries, dressed in traditional national costumes and various interesting types of shooting create an unusual and exciting sight.

WTAFU has many years of experience in the world's best festivals such as Conquest Cup (Turkey), World tradition archery festival (Korea), as well as various tournaments in Poland, China and the Republic of Belarus.

At the moment clubs and federations from Turkey, Poland, Slovakia, Hungary, Belarus, Kyrgyzstan, Cyprus, Moldova and Lithuania have shown interest in participating.

Competitive disciplines of the festival:

Stand shooting - is shooting at a static target from standard distances (20-25-30-35 m). This is the easiest and the most common way to determine the level of the shooter (archer), it also is fundamental for working out the basic techniques of shooting with a traditional bow.

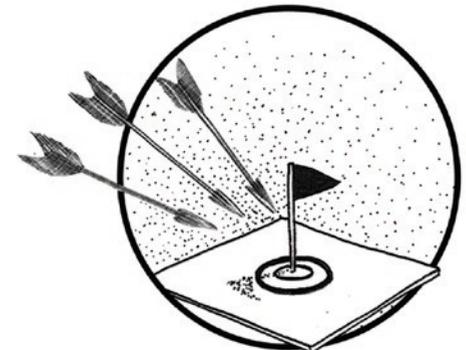

Practical shooting (Field Archery, 3D Archery) - is a simulation of a real hunting, which must show the archer's ability to shoot at unknown distances, from different angles and unusual shooting positions.

Dynamic shooting - combines the diversity of intuitively shootings at moving targets, and also shooting and moving. The examples are the following types of shooting : shooting at a pendulum target, a windmill and «flu-flu» disks.

Long range shooting - one of the ancient and historic kinds of shooting, used by archers in wartime. They include such discipline as: target shooting at 60 meters and more, Korean shooting at 90 and 150 m, Clout shooting, when you have to shoot a canopy in a given sector , flight shooting - firing at a maximum distance.
