**International Traditional Archery Festival**

**Ukraine, Kyiv**

**"Archery Tradition"** - is an annual international festival of traditional archery, which connects the main four types of archery, Stand, Practical (3D, 2D Hunting, Field) Dynamic shooting (at moving targets) and Shooting over long distances .

### **General disciplines**

**Stand shooting** - is shooting at a static target from standard distances (20-25-30-35 m). This is the easiest and the most common way to determine the level of the shooter (archer), it also is fundamental for working out the basic techniques of shooting with a traditional bow.

**Practical shooting** (Field Archery, 3D Archery) - is a simulation of a real hunting, which must show the archer`s ability to shoot at unknown distances, from different angles and unusual shooting positions.

**Dynamic shooting** - combines the diversity of intuitively shootings at moving targets, and also shooting and moving. The examples are the following types of shooting : shooting at a pendulum target, a windmill and "flu-flu" disks.

**Long range shooting** - one of the ancient and historic kinds of shooting, used by archers in wartime. They include such discipline as: target shooting at 60 meters and more, Korean shooting at 90 and 150 m, Clout shooting, when you have to shoot a canopy in a given sector , flight shooting - firing at a maximum distance.

### **Main provisions**

After registration, participants will be divided into 4 groups, which will start simultaneously in 4 different stages, but all stages will be passed in turns.

A team leader, writer and controller will be appointed for each group by organizers.

The leader will be responsible for a group`s correct passage of the route and the announcement of score points that should be written to the score cards by the writer, and a controller will confirm their authenticity.

- *tradition*
- *modern long bow*
- *hunter*

## ***Tournament regulations:***
